Recycling, Composting, Landfill Operations/Engineering and Oilfield Wastes Focus of Upcoming Conference in Mandan

Mandan, ND ó From managing special oil field wastes to innovations in landfill design to sustainability in rural settings, this second joint solid waste/recycling conference and trade show between North Dakota Solid Waste and Recycling Association, South Dakota Solid Waste Management Association and Montana Department of Environmental Quality will bring recyclers, garbage haulers, public works employees, landfill operators, industry suppliers and regulators from a five state region together September 10-12, 2013 at the Best Western Plus Seven Seas Hotel and Waterpark in Mandan, ND.

A wide range of topics will be covered at the conference. Robin Thorstenson of Bismarck State College, will give the keynote on Generations in the Workplace. Other topics will include: Sustainability Planning and Programs, Design-Build Challenges: Belize and Villahermosa, Mexico, Permitting a Special Waste Landfill, Alternative Landfill Liner Designs in South Dakota, Rural Recycling Roundtable, Oilfield Waste Management in North Dakota- Update, Rare Earth Elements in Fly Ash, Solid Waste Issues on Tribal Lands, Ag Plastic Recycling, Managing Debris After a Natural Disaster, Safe, Effective & Economical Household Hazardous Waste Collections, Landfill Management of NORM Waste, Bismarck Recycling Update, Roadkill Composting, TENORM Sampling/Radiation Survey Instrument Use, Composting Operations Roundtable, Billings Landfill Gas, Phytoremediation at the Sioux Falls Landfill, Trends in Oilfield Cleanup, Regulatory Roundtable on Oilfield Waste and Other Wastes.

Tours during the three-day conference will include the City of Bismarck Solid Waste Facilities and City of Mandan Remediation Site. Over 40 exhibitors will showcase their products, services and industry equipment to participants.

If you deal with garbage or recycling in your place of business or community and have an interest in the environment, your attendance is a must. Representatives from the public and private sector will provide insight into the industry's latest technology. Network, gain knowledge and assist communities in enhancing municipal solid waste disposal and recycling efforts in your area.

The conference is sponsored by the North Dakota Solid Waste and Recycling Association (NDSWRA), South Dakota Solid Waste Management Association (SDSWMA) and the Montana Department of Environmental Quality. If you are interested in attending the conference please contact Jerry Volk at (701) 590-0488 to register or visit www.ndswra.org.

Editor's note:

Television, camera crews and reporters are welcome to record/photograph portions of the conference sessions and/or exhibit area. Visit www.ndswra.org for more information.
